XROK TRANSPORTER 4030E

Multifunctional and compact stockpile conveyor

XROK

MULTIFUNCTIONAL AND COMPACT STOCKPILE CONVEYOR

Applications

The Transporter 4030E mobile wheeled stockpile conveyor is designed to process stones, aggregate, minerals, solid waste, topsoil, compost and green waste type products.

Benefits and advantages

- Steady and smooth operation, powered by electric motor
- Robust, heavy duty construction allows a wide variety of materials to be transported
- Simple structure
- Maintenance friendly with full service accessibility and central grease points
- Adjustable height
- Simple and quick installation
- Radial wheels
- Polyurethane scraper
- 5990 mm stockpile height
- Capacity up to 200 TPH
- Minimal set-up time

Optional

- Conveyor length range from 6000 mm until 24000 mm
- Conveyor belt width from 500 mm until 1200 mm
- Hydraulic cylinder to adjust height
- Hydraulic motor instead of electric motor

Dimensions

Gross weight	1500 (kg)
Length	12000 (mm)
Working width	2510 (mm)
Height (max.)	6090 (mm)
Transport length	12000 (mm)
Transport width	1290 (mm)
Transport height	865 (mm)

Power unit

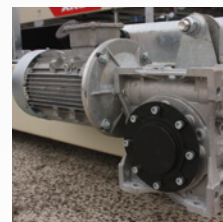

Powered by	Electric motor
Power	5.5kW

Conveyor

Length	12000 (mm)
Width	750 (mm)
Type	EP400 3 ply conveyor belt

Radial wheels

Electric motor

Polyurethane scraper

Central grease points
